

## To 4D

I looked up to yall, I will admit it. Like most do, I resented you and your collection of STARS. And here's a tidbit of advice. Keep them. Keep them safe, keep them secure, and do not trust anyone with the images. It does not matter who you give them to. Trusted person or not, the moment you have an argument with them they will leak it. Now, am I grown up enough techknight?
